SIGNATURE TREATMENTS

★ **Senses of the Algarve**
80min | 180€

Relying on the most traditional ingredients of the Algarve, the signature treatment from Serenity - The Art of Well Being, at Pine Cliffs Resort, is a true journey through the best that the Algarvian region has to offer. The treatment starts with a scrub of Fleur-de-Sel from Ria Formosa and sand from Falésia beach. Prepared carefully by the Serenity team, these ingredients contribute to the purification of your skin, letting the pores breathe and preparing the skin for the next step: the carob wrap. This is one of the most famous products of the Algarve, recognized for its health-giving properties. Naturally rich in selenium, carob also contributes to a balanced thyroid, and its gallic acid and tannins, very well-known for its antioxidant and antibacterial features, are especially important in the treatment of oily and damaged skin. To finish, you will be able to enjoy a full body hydration with essential orange-oil from the Algarve which will enhance the carob advantages. The antioxidant properties of the orange are a great contribution for the prevention of premature aging, fighting the free radicals. After the treatment, enjoy peaceful moments in our relaxation room, with a lemon-grass tea, a product of the region as well, to improve your tranquillity sensation.

AYURVEDA TREATMENTS

Rooted in India's 5,000-year-old Ayurvedic tradition, our treatments aim to balance the three doshas – Vata, Pitta, and Kapha – the energies that govern your physical, emotional, and mental state. Formed by the five natural elements, each dosha reflects a unique mind-body type. Vata (air & ether) governs movement and benefits from warmth and relaxation; Pitta (fire & water) controls metabolism and is soothed by cooling, calming therapies; Kapha (earth & water) provides stability and needs stimulation and lightness. Our tailored rituals blend traditional Ayurvedic techniques with natural Portuguese elements, herbal oils, aromatherapy, and soothing music. Each treatment is a sensory journey, designed to restore harmony, vitality, and inner peace.

Ayurvedic Massage

04. CBD

What is CBD and how does it work?

CBD is a non-psychotropic compound found in the cannabis plant. CBD interacts with the endocannabinoid system in our body which helps to keep our bodies in balance. CBD appears to be able to influence the immune system, helping to alleviate pain, reduce insomnia, anxiety, nausea and inflammation.

What is the difference between CBD and cannabis?

CBD doesn't have the psychoactive properties of THC (Tetrahydrocannabinol) found in marijuana/cannabis. To make a product legally compliant it must contain less than 0.2% THC. The CBD in the products we sell is standardized to contain less than 0.2% THC, this is a level below the amount considered to result in any psychoactive effect.
